Clarification on Emergency Declaration:

Today, President Biden approved Governor Leon Guerrero's request for a Presidential Emergency Declaration in response to Tropical Storm Bolaven. The President's action authorizes FEMA to coordinate all disaster relief efforts which have the purpose of alleviating the hardship and suffering caused by the emergency on the local population, and to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, and to lessen or avert the threat of a catastrophe in the territory of Guam.
